

COMMENTS/QUESTIONS TO SOLICITATION

10 August 2005

C.1 2005:Jul:8:19:50:22	C.1.13 Phase-In	(PWS Page 9 of 47) C.1.13 Phase-In ".....The SP shall use the phase-in period to stand up its organization and resources to meet all contract performance requirements from the first day of the base period through the last day of contract performance and shall take over operations from the Government in accordance with the Phase-In Plan...."Is it the government's intent that the SP assumes any performance responsibilities (e.g., C.3, C.4, C.5) during the Phase-In period? Please clarify.	C.1.13, Phase-In was revised by Amendment 0005, issued on 03 August 2005.
C.1 2005:Jul:7:19:55:59	C.1.13	Current Contract Employees: The PWS states that the phase-in period of 12 months begins upon contract award and ends at the start of the base period. If the intent is for the SP to take over contracts, are there any restrictions to taking on the work of those contracts and delivering service in the phase-in period? If so, what are those restrictions?	C.1.13, Phase-In was revised by Amendment 0005, issued on 03 August 2005.
C.1 2005:Jul:20:14:01:06	1.3	What contract clauses address the issuance of task orders?	C.1.3 will be modified to remove the words 'task orders'.
C.5.6 2005:Jul:20:14:50:15	C.5.6.1.2	How are these orders through DAPS paid?	Method of payment is outside the scope of this solicitation.
Other 2005: Aug:3:15:03:00	Amt 3 Seattle visit	In Amd03, in answering a question at the Seattle site visit- it was noted that support of the "WM" servers was excluded" however in an answer provided in Amt 2 (C.1 2005: Jul:14:15:28:19) related to operation of applications, the answer stated: "The SP will continue operational support for all existing AIS's, including those on the excluded list.". The WM AIS is listed in the provided AIS listing. In addition, there appear to be WM related servers and other support equipment listed in TE-3 (GFE and GFS) and there are WM systems detailed in TE-5 (network drawings). If operations and support to WM servers and other systems are excluded, where in the RFP is this outlined? In addition, if they are excluded, wouldn't the TEs need to be updated to reflect which systems are WM related and as such exempt from this competition for both	Water Management systems, program management and dedicated IT support are excluded. IT infrastructure support to this system and all other excluded systems is included. Section C.1 2005: Jul:14:15:28:19 is accurately stated. Infrastructure support is properly articulated in the PWS in several areas, but primarily in sections in areas that discuss automation and telecommunications. For example: COOP is required for all systems (even excluded systems). We reviewed the TE's based on your comment and feel they are adequate as presented.

		refresh and staffing purposes?	
RFP	Section J - Wage Determinations	I did not see the wage rates for the county of Chatham, Georgia	Service Contract Act Wage Determination 94-2141 (Rev. 30) dated 5/18/2005 will be issued in an upcoming amendment, which will cover Chatham County, Georgia.
